We Create ENDURING CONNECTIONS

R-Group is a Finnish leading global supplier of precast accessories and concrete connections. With more than 30 years of experience in precast industry, R-Group with its global brand of RSTEEL® provides sustainable solutions for safe, reliable and enduring structures throughout the world.

RSTEEL® comply with strict quality control in accordance with guidelines of the Finnish and European Concrete Associations and the ISO 9001- ISO 14001 certificates. With offices in Finland, Estonia, Russia and UAE, we are dedicated to providing you with the best quality solutions at competitive prices.

Our Promise

We work hard to earn your business, blending the talents of our people with the quality of our products and services for safer, economical and reliable construction leading to customer success.

Green Policy

Our Commitment to Environmental responsibility. We use a company-wide environmental management system and educate our staff members on a regular basis. We comply with all statutory obligations and requirements, and have prepared ourselves for any possible environmental damages.

We save both energy and natural resources by cutting down on our emissions and waste. We use chemicals with minimal environmental effects. We work with suppliers and interest groups who use certified environmental management systems. We comply with the ISO 14001:2015 standard.

Safety and Quality

RSTEEL®'s values, vision and strategy provide a solid foundation for our quality objectives. We use quality assurance meetings and auditing processes to constantly maintain and develop seamless cooperation between purchasing, sales and warehousing units. The results of our quality and environment work are inspected regularly by external audits. We comply with the ISO 9001:2015 standard.
